

Announcing our new bulk fuel delivery system for farms, commercial businesses and homes.

Automated Fuel Delivery

Your fuel is there when you need it most. And the best part is, you don't have to pay for it until you use it. Available only from your local cooperative, the Cenex® Automated Fuel Delivery System provides unique benefits you won't find anywhere else. With this proven technology, your tanks will be automatically refilled so you'll always have a reliable supply of high-quality fuel on hand, without having to check tanks or bother with orders. Even better, you can opt to be billed for fuel as you use it by choosing our deferred billing option, which is a real advantage with today's price swings.

Saves you time and hassles

- No more checking your fuel tank levels or waiting for delivery
- No more worrying about running out of fuel at a busy time
- Never order fuel again – tank monitors accurately measure your fuel supply every day and automatically trigger a delivery order when your fuel level drops

Improves your cash flow

- Deferred Billing option – pay only for the fuel you use each month (no inventory cost)
- Average Monthly Pricing option – each month, pay that month's average fuel price (no more trying to outguess the market)
- Fuel contracting option – you can choose to lock in your fuel price

Keeps you in control

- You determine fill level
- You choose how you'd like to be billed (deferred billing, pay the daily price for your fuel, or contract to lock in your fuel price)
- You can decide to buy the inventory in your tank at any time

Gives you online access

- Monitor your current and historical usage online 24/7, from anywhere
- Check your fuel tanks in multiple locations
- Help your business generate reports, manage inventory and forecast future needs

Delivers quality fuels

- Cenex® Ruby Fieldmaster® premium ag diesel fuel
- Cenex Roadmaster XL® premium highway diesel fuel
- Unleaded gasolines
- #1 and #2 seasonal diesel fuel*

*You can receive blended fuels, and the system can help maintain fuel freshness by reducing off-season fuel inventories.

Why choose Deferred Billing?

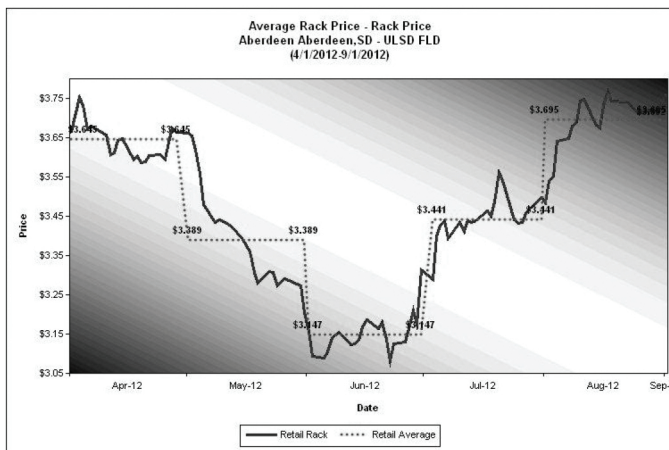

The monitor in your tank will estimate the amount of product you have used each month, and we'll bill you only for that amount (even though your tank may be kept full). Because you aren't billed for fuel until you use it — similar to how you pay for electricity usage — you can put your money to better use.

- Provides a real value by improving your cash flow
- Don't pay for fuel until you use it (similar to how you pay for electricity usage)
- No more tying up dollars in fuel that is just sitting in your tank — you'll be paying for fuel as it goes out of your tank, rather than paying as it goes in
- No upfront cost to fill your tank

Why take advantage of Average Monthly Pricing?

If you choose this special pricing option, the price you pay for fuel is equal to the 30-day average price of fuel for the billing cycle in which you actually use the fuel. This has proven to be an advantage whether it's an up market or a down one. Plus, you always have the option to own the fuel in your tank at any time if you like the current price.

- Can substantially reduce your price risk in volatile markets (up or down)
- Rather than paying the price posted on the day the fuel was delivered or used, you'll be charged the average price for that entire month
- Stop worrying about what the market will do next or waiting to order in hopes that prices will drop

| Inventory Cost Savings | | | | | | | |
|------------------------|---------------------------------|----------|----------|----------|----------|----------|--|
| Fuel Costs | Number of Months You Store Fuel | | | | | | |
| | 2 | 4 | 6 | 8 | 10 | 12 | |
| \$ 2.00 | \$ 0.020 | \$ 0.040 | \$ 0.060 | \$ 0.080 | \$ 0.100 | \$ 0.120 | |
| \$ 2.50 | \$ 0.025 | \$ 0.050 | \$ 0.075 | \$ 0.100 | \$ 0.125 | \$ 0.150 | |
| \$ 3.00 | \$ 0.030 | \$ 0.060 | \$ 0.090 | \$ 0.120 | \$ 0.150 | \$ 0.180 | |
| \$ 3.50 | \$ 0.035 | \$ 0.070 | \$ 0.105 | \$ 0.140 | \$ 0.175 | \$ 0.210 | |
| \$ 4.00 | \$ 0.040 | \$ 0.080 | \$ 0.120 | \$ 0.160 | \$ 0.200 | \$ 0.240 | |
| Interest Rate Percent | | | 0.06 | | | | |
